AI ACT
TRANSPARENCY OF HIGH RISK SYSTEMS

- Title I: General Provisions
- Title II: Prohibited AI Practices
- Title III: High-risk systems
- Title IV: Transparency obligations for certain systems
- Title V: Measures in support of innovation
- Title VI: Governance
- Title VII: EU database for stand-alone high-risk AI systems
- Title VIII: Post-market monitoring, information sharing, market surveillance
- Title IX: Codes of Conduct
- Title X: Confidentiality and penalties

Chapter 2
Requirements for high risk systems

Chapter 2
Art. 13
Transparency and provision of information to users

1. High-risk AI systems shall be designed and developed in such a way
   – *to ensure that their operation is sufficiently transparent*
   – *to enable users to interpret the system's output*
   – *and use it appropriately.*

An appropriate type and degree of transparency shall be ensured,
   – *with a view to achieving compliance with*
   – *the relevant obligations of the user and of the provider*
   – *set out in Chapter 3 of this Title.*

Chapter 2
Art. 13
Transparency and provision of information to users

2. High-risk AI systems shall be accompanied by

– *instructions for use*

– *in an* appropriate digital format or otherwise

– *that include* concise, complete, correct and clear information

– *that is* relevant, accessible and comprehensible to users.

Transparency and provision of information to users

The information referred to in paragraph 2 shall specify:

a. the identity and the contact details of the provider and, where applicable, of its authorised representative;

b. the characteristics, capabilities and limitations of performance of the high-risk AI system, including: (…)

c. the changes to the high-risk AI system and its performance which have been pre-determined by the provider at the moment of the initial conformity assessment, if any;

d. the human oversight measures referred to in Article 14, including the technical measures put in place to facilitate the interpretation of the outputs of AI systems by the users;

e. the expected lifetime of the high-risk AI system and any necessary maintenance and care measures to ensure the proper functioning of that AI system, including as regards software updates.
